

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

N O T E .

The late Mr. CHARLES I. BUSHNELL was widely known, not only as a persevering collector of rare and quaint books, but also as a diligent student of American history ; whose thorough knowledge of those minutiae which escape the notice of all but the painstaking specialist had been proved by his original essays and scholarly annotations to various books. To the happy combination of both of these characteristics is due the formation of a collection, not only exceedingly rich in the original authorities for American history, but including many of those rarities and curiosities which attract the bibliomaniacal collector.

It is distinctively a Library of Americana. A number of the old English classics, many works on oratory and composition, translations of Greek and Latin authors, works on the care of birds and other special topics, with a few black-letter volumes, comprise most of the miscellaneous portion of the library.

While the collection covers the whole range of the history of America, from its discovery to the Rebellion, certain periods and topics are more fully represented than others. Prominent among these are the whole period of the Revolutionary War, the wars with the Indians and the War of 1812 ; while on the early naval history of the United States the collection is almost exhaustive.

Prominent among the special subjects upon which the collection is very full, are the history of New York City, the André and Arnold episode, the Jersey Prison Ship and its victims, the Tammany Society, Indian Captivities and Massacres, Hamilton and Burr, Washington, &c., including under each head many of

the rarest works on the subject. The collection of Trials, both military and civil, is, for its size, of great interest.

The very large number of Local Histories and of Historical Addresses merit especial attention, including as they do, many of the scarcest works of this class. Many Genealogies and most of the valuable Reprints of rare Americana which have been issued in limited editions during the last twenty years will be found in the library.

A most noticeable feature of the collection is the great number of books illustrated with extra plates by Mr. Bushnell. Such plates are inlaid, when necessary, in the best manner. Numerous other books, although many of them are ready for the binder's hands, have the extra plates merely laid within the covers, and are so noted.

The books, as a collection, are in excellent order, internally and externally. Care has been taken to mention the few defects that have been found. The great majority of the books in half calf and half morocco were bound by Mr. Bushnell's directions and their bindings have been preserved uninjured and fresh.

The large collection of Portraits and Engravings were selected almost entirely with a view to illustrating American history. Among them will be found some mezzotints and other engravings of great rarity. The collection of Autographs is of the same character. A glance over the names of the writers will sufficiently indicate the number of rare and valuable letters which it contains. Many other autograph letters will be found inserted in various books throughout the catalogue.

Among the Historic Relics, &c., will be found a number of articles deserving the collector's notice. It is unnecessary to do more than to call attention to the very peculiar interest attached to the large number of original Wood Blocks engraved by Dr. Anderson—the American Bewick.

CATALOGUE.

- 1 **A**BBOT, A. History of Andover. 12mo, cloth, uncut
Andover, 1829
